GENERAL ALPHABETICAL INDEX, EMBRACING EVERY RANK IN THE ROYAL NAVY AND ROYAL MARINE FORCES 275

ADDRESS

TO THE FIRST EDITION.

THE importance of the NEW NAVY LIST and GENERAL RECORD OF SERVICES to all Officers of the Royal Navy and Royal Marines, has been seriously considered by the Proprietors and Editor of the present Number. In completing, at a great sacrifice of capital and labour, the extensive alterations, which will be observable at a glance, due regard has been paid to the relative services of all Officers, and the whole arrangement so changed that its superiority in point of information will, it is hoped, render the NEW NAVY LIST a book of general circulation and reference.

Nothing can be further from the wish of the Proprietors than to detract from the merits of the late gallant Compiler, Commander HAULTAIN, whose labours and sacrifices were but ill compensated by the sale of the work; but, in admitting deficiencies, of which a remedy has been aimed at, they must be in a great measure laid to the charge of the want of business resources with which he had to contend. In this respect there will now be nothing wanting; and it is the full intention of the Proprietors to render the NEW NAVY LIST in every way worthy the full confidence and patronage of the Navy and Country at large.

The changes which have at present been effected may be here alluded to. The Services of all Officers have been separated from the mass, and brought to follow the Seniority Lists of the respective ranks as closely as possible. The object of this has been to facilitate references. The Services have been thoroughly revised and reprinted in double columns, and all expletive terms of commendation or otherwise struck out. Thus an Officer will no longer have to read the services of a brother Officer recounted in a more laboured strain than his own, which intrinsically, perhaps, were of greater merit than those so described. The propriety of this will, it is hoped, meet with general concurrence, and by thus removing superfluous type, an extended record of actual service is rendered easy. In a word, it is the wish to condense as much real service as possible into a small and intelligible compass, without giving undue consequence to any.

The NEW NAVY LIST will also, for the future, give by far the most complete record of the Services of that distinguished corps, the Royal Marines, in a condensed form, to be found in any publication. This new feature will, it is hoped, have the effect of making it a work essential and acceptable to all in any way connected with the Navy. In compiling the Services for the present Number, the Editor acknowledges the assistance he has derived from the valuable work lately published by Lieut. Nicolas, of that corps.*

The List of the Navy has also undergone a thorough revision. Beneath the name of each Ship on the Effective List will be found the place and date of launching, the tonnage, and name of constructor or constructors—information not to be found in a complete shape in any other publication extant. The unserviceable and harbour service Ships have been removed to a separate list.

The exclusion of the "date of passing" column, heretofore given in the Seniority Lists of Captains, Commanders, and Lieutenants, demands some explanation. The extremely partial, and occasionally inaccurate, way in which the information was given, rendered it particularly objectionable; and the evident disinclination on th
Officers of long standing generally to commun
added to the impracticability of pr

But the most important new feature is that of the General Alphabetical Index of all Officers in the Royal Navy and Royal Marines, which has been compiled with great labour, and upon the accuracy of which the character of the work may be safely staked.

The Honorary Marks before the names of titled Officers will soon become familiar to the eye, and it is presumed they will be preferred to the letters heretofore used.

The Initial Letters at present refer only to the services of Officers in Lord Howe's great battle of the 1st June, 1794; Sir John Jervis's victory off Cape St. Vincent, 14th February, 1797; Admiral Duncan's defeat of the Dutch fleet off Camperdown, 11th Oct., 1797; Nelson's

achievements at the Nile, 1st Aug., 1798 ; at Copenhagen, 2nd April, 1801 ; and at Trafalgar, 21st Oct., 1805 ; together with the expedition to Egypt, 1801 ; Sir Richard Strachan's action off Ferrol, 4th Nov., 1805; and the defeat of the French squadron off St. Domingo by Admiral Sir John Duckworth, 6th February, 1806. By this selection it is not meant to cast other services into the shade, and it will be a subject for consideration what other triumphs of the British Navy shall be equally distinguished. Those selected will, without doubt, ever rank foremost in the pages of Naval History ; and as the Captains who participated in all (except that of Copenhagen) were honoured with gold medals, there was good reason for commencing with those brilliant victories. The Battle off Lissa ; bombardment of Algiers; destruction of the Turkish fleet at Navarin; and the overthrow of St. Jean D'Acre, were each and all alike honourable to British prowess, and will also come under consideration for distinction.

Although thus much has been done, attempts at further improvement will not be wanting, and it will afford pleasure to the Proprietors and Editor to receive corrections or available additions to the services as they are now given. In particular, those services of a scientific [illegible] to, which Officers are requested to furnish in [illegible] ected with [illegible] cannot be permade an increase to the number of Subscribers ; and those whose wish it is to maintain a work of such value to all who have claims which require to be kept before those in authority, will, it is hoped, use their best endeavours to increase the sale. They will thereby also enable the Proprietors to publish the work at the lowest price which will afford a due return for the capital embarked, and the vigilance and labour which must be incessantly employed in the collection of new materials, and the preservation of accuracy.

He shall produce Certificates of diligence, sobriety, and good conduct from his Captains, also from the Owners, for the time he served as Master, and from the Owners and Master for the time he served as Mate; and shall pass such Examination as the Admiralty may from time to time direct; but no Candidate shall be examined before he shall have attained the Age of twenty-one years, nor after the age of forty.

Masters are also to be considered eligible to be promoted to the rank of Lieutenant in Her Majesty's Navy, if, from distinguished conduct in the performance of their duty, a particular case should arise which, in the opinion of their lordships, it may be proper to reward by advancement, although the individual who shall have so distinguished himself may not have been rated Midshipman (as required in other cases) in Her Majesty's service; provided always that he shall have served at Sea seven years.

A Master's Assistant (when such rating shall be allowed by the Admiralty) may be so rated, on receiving the sanction of the Admiralty, and on passing such Examination as the Admiralty may direct.

He shall have been at sea either in Her Majesty's Navy three complete years, or in the Merchant Service four years (one of which as Mate or Inferior Mate); or for combined periods of two years in the Royal Navy, and two in the Merchant Service; or one year in the Royal Navy, and three in the Merchant Service, and shall be full 16 years of age.

He will be required to have a thorough knowledge of Practical Observations of the Sun, Moon, and Stars, for ascertaining the Latitude; to work double Altitudes; the Longitude by Chronometer; and to keep a Ship's reckoning by the common Rules, usually denominated a day's work. He will also be required to produce Certificates of Servitude and Regularity of Conduct.

Candidates for the appointment of Acting Master's Assistant are to be strictly and carefully examined in the presence of the Captain, or Commander, by a Master and Naval Instructor, and, when there shall not be an Officer of the latter Class, by two Masters, touching their abilities in Seamanship, Navigation, &c. The Certificates of Qualifications are to be signed by the Captain, or Commander, as well as by the examining Officers; and all Candidates who shall be found qualified, agreeably to the before-mentioned provisions, will be considered eligible to be appointed by their Lordships as Acting Masters' Assistants in Her Majesty's Navy accordingly.

The figures prefixed to officers' names signify the rates for which they are qualified. Those qualified for Sloops only, are without figures. Officers passing for higher rates are requested to inform the Editor thereof.

Those with an Asterisk against the name are unfit for active service.

The following 100 Officers, if qualified for 1st or 2d rates, are entitled to the half-pay of Seven Shillings per diem.

MATES.

To qualify an Officer to become a Mate, he must have served the time and passed the Examination required to qualify him for a Lieutenantcy; but whatever rank beyond that of Midshipman he may obtain abroad, previous to passing such Examination at the Naval College as may from time to time be required, will depend for confirmation on his passing the said Examination within such period after his return to England as shall be directed from time to time by the Admiralty.

Admiralty, 12th August, 1840.

All Midshipmen who shall have passed such Examination respecting their Qualifications for the appointment of Lieutenant as the Lords Commissioners of the Admiralty may from time to time direct, (if abroad, for Seamanship and Navigation, and if at home also at the Royal Naval College), shall be considered eligible to have Warrants or Commissions as Mates in whatever Ship they may be serving; such Warrant or Commission will be given by the Lords Commissioners of the Admiralty, upon the recommendation of the Commanding Officer of the Ship in which the person may be serving, transmitted by the Commander-in-Chief or Senior Officer on the Station.

During their first three years of actual service as Mates in the Royal Navy they will take Rank with Ensigns in the Army, and after three years' service with Lieutenants in the Army, according to their seniority as Mates, to be computed from the dates of their original Warrants from their respective Captains, under the former regulations in respect to Mates.

Commanders-in-Chief on Foreign Stations may give Acting Warrants as Mates to such Midshipmen as may pass abroad for Seamanship and Navigation, which Warrants will be confirmed from their original dates if approved by their Lordships, provided they pass their examination at the Royal Naval College in two months after their arrival in England; but no person appointed to act as Mate or as Lieutenant is to be sent home from a Foreign Station for the purpose of passing such examination.

To qualify a gentleman for an appointment as Midshipman, he must have served in Her Majesty's Navy two complete years as a Cadet, or three complete years in any other capacity; and shall pass such Examination as may from time to time be ordered by the Admiralty, and shall be full fourteen years of age.

A Naval Cadet, before his admission into the Navy, shall undergo such Examination as the Admiralty may from time to time direct.

Naval Cadets must not be under twelve years. They must be in good health, fit for Service, and able to write English from dictation, and must be acquainted with the four first Rules of Arithmetic, Reduction, and the Rule of Three.

(Mates on the half-pay of Half-a-crown a-day are in *italics*).

NAVAL INSTRUCTORS.

A Naval Instructor shall produce a Certificate of his age, and Testimonials of good character, and shall pass such Examination as the Admiralty may from time to time direct; but no person will be considered eligible for the situation who is under 20 or more than 35 years of age. He will be allowed, in addition to his pay, £5 a-year to be charged on the ship's books against, and to be deducted from, the pay of every young gentleman who shall have received instruction from him; but no Naval Instructor who shall retire from his employment without the sanction of the Admiralty, or who shall refuse or avoid service, if found capable of serving, shall be allowed to receive half pay; and his name in such case will be removed from the list of Naval Instructors.

Chaplains appointed to act as Naval Instructors are to be designated "Chaplains and Naval Instructors," and will be allowed £5 a year to be deducted from the pay of every young gentleman instructed by them, in addition to their pay as Chaplains and to three-fourths of the amount of the Full Pay of Naval Instructors, according to the length of their service as such.

REGULATIONS FOR THE QUALIFICATION, AND HALF-PAY OF NAVAL INSTRUCTORS AND SCHOOLMASTERS, ESTABLISHED BY ORDER IN COUNCIL OF THE 22nd DEC. 1836, 10th AUGUST, 1840, AND 11th MARCH, 1842.

Naval Instructors and Schoolmasters are hereafter to be designated "Naval Instructors," and Chaplains on being appointed to act as Naval Instructors are to be designated "Chaplains and Naval Instructors."—No person will be considered eligible for a Warrant as Naval Instructor who is under 20 years of age or more than 35.—Before any person can hereafter be received on board Her Majesty's ship "Excellent" as a candidate for an appointment as Naval Instructor, he will be required to produce a certificate of his age, and testimonials of good character; and both laymen and clergymen when appointed to act as Naval Instructors must pass an examination as to their qualifications to instruct the young Officers in the following branches:—1st. Common Arithmetic, including Vulgar and Decimal Fractions.—2nd. The first six, and the eleventh books of Euclid.—3rd. Algebra, progressing to the highest order of equations, and its application to the solution of Geometrical Problems.—4th. Plane and Spherical Trigonometry, theoretical and practical.—5th. Nautical Astronomy, particularly the principles on which the various rules for finding the latitude and longitude are founded.—6th. Mechanics.—7th. Hydrostatics.—8th. A competent knowledge of the Classics.

The final examination of Candidates for Naval Instructorships will comprise:—1st. The usual College passing examination in Navigation.—2nd. The application of the theory of Projectiles to Gunnery.—3rd. Observations with the Sextant, &c. The use of the Azimuth Compass and Chronometer, &c. Perfect proficiency will be expected in observing: 250 numbers will be required to pass a Candidate in the College Paper, and 55 is to be the minimum number for observations.

Although the knowledge of French, as well as of other modern languages, and of the principles of drawing, is not considered as indispensable, it is very desirable that Naval Instructors should be able to give instruction in these branches of education; and preference will always be given to such as possess these attainments.

The Naval Instructor is to be considered in all respects a Ward Room Warrant Officer. Unless they be in Holy Orders, they are to wear the same uniform as Masters, but without epaulettes or gold lace on the trowsers.

MEDICAL OFFICERS OF THE NAVY.

To be eligible for a Commission as Medical or Deputy Inspector of Hospitals and Fleets, a Surgeon must have served four years in Her Majesty's Navy as Surgeon on board a Commissioned Ship.

Admiralty, 7th May, 1830.

Notice is hereby given to the Medical Officers of the Royal Navy, that Sir Gilbert Blane, Bart., First Physician to his Majesty, and formerly Member of the Board for Sick and Wounded Seamen, with the concurrence and approbation of the Lords Commissioners of the Admiralty, has, for the encouragement of Naval Medical Science, and the excitement of an emulation that may conduce to the interests of an important branch of the public service, established a Fund in perpetuity, for the purpose of providing the means of conferring a *gold medal*, once in every two years, on such two Medical Officers, whether *Surgeons*, or *Assistant-Surgeons acting as Surgeons*, as shall produce the most approved journals of their practice, whilst actually serving in King's Ships.

The selection of the journals will, in the first instance, be made by the Medical Commissioners of the Victualling Board, on the 12th of August, 1831, and will consist of not more than ten, nor less than five, of those journals delivered into office between the 12th of July, 1827, and the 12th of July, 1831; and the subsequent selections will be made from those delivered within the period of every two succeeding years; and the adjudication of the medals will, during the life of Sir Gilbert Blane, be made by him, and will subsequently be vested in the Senior Medical Commissioner, the President of the College of Physicians, and the President of the College of Surgeons, London.

Medical Officers who have received Sir Gilbert Blane's Gold Medal.

1. No Candidate will be nominated a Cadet who is under 15 or above 19 years of age; and he must be prepared to pass such examination as the Lords Commissioners of the Admiralty may deem fit to require.

Each Candidate will be expected to give security for the payment of such a sum to the Accountant-General of the Navy as may be fixed upon, and to bring with him, when he appears for Examination, a Certificate of good conduct from the Masters of the Schools at which he studied for the last three years, and a Certificate from the Inspector-General of Naval Hospitals and Fleets of sound bodily health, and that he does not stammer, and has no other physical defect.

If appointments are made before the examination at the end of the second year, the half-yearly examination immediately previous to the occurrence of the vacancy shall be the test of ability; but in all cases the Candidate must have reached the points fixed in paragraph numbered 2, to entitle him to an appointment, and will be placed on the List of Officers according to the ability shown at such examination.

No Cadet will be allowed to proceed to the College until he has passed through the whole plan of instruction laid down for Marine Cadets in the "Excellent," and he will not be received at the College unless he produces a Certificate of good conduct from the Captain of the "Excellent."

All the Examinations proposed are to be carried on by the Professor at the Royal Naval College, under the direction of the Captain of the "Excellent."

OFFICERS AUTHORISED TO WEAR FOREIGN ORDERS.

Rules relative to Foreign Orders from Foreign Sovereigns.

No British Subjects shall accept a Foreign Order, or wear its Insignia, without having previously obtained a Warrant under the Royal Sign Manual (directed to the Earl Marshal of England), granting them Her Majesty's permission to accept and wear the same.

To obtain such permission, the intention of the Foreign Sovereign to decorate a British subject with the Insignia of such Order is to be notified to Her Majesty's Principal Secretary of State for Foreign Affairs, either through the Queen's Minister abroad, or through the accredited Minister of the Foreign Sovereign resident at this Court.

When Her Majesty's Principal Secretary of State for Foreign Affairs shall have taken Her Majesty's pleasure, and obtained Her consent upon the occasion, he shall then signify the same to Her Majesty's Principal Secretary of State for the Home Department, in order that the usual Warrant may be prepared for the Royal Sign Manual, and such other steps be taken as may be necessary for carrying Her Majesty's pleasure into effect accordingly.

When the Warrant is signed by the Queen, it shall be announced in the Gazette in the usual manner, and registered in Her Majesty's College of Arms.

No subject of Her Majesty can be allowed to accept the Insignia of a Foreign Order from any Sovereign of a Foreign State, except they shall be so conferred in consequence of active and distinguished services before the enemy, either at sea or in the field, or unless he shall have been actually employed in the service of such Foreign Sovereign.

Her Majesty's licence and permission doth not authorise, and shall not be deemed or construed to authorise, the assumption of any style, appellation, rank, precedence, or privilege appertaining unto a Knight Bachelor of these Realms.

And if the application be in favour of a Naval Officer, the Principal Secretary of State for Foreign Affairs will communicate with the First Lord of the Admiralty to the same effect, previous to Her Majesty's pleasure being taken thereon.

GREENWICH HOSPITAL SCHOOLS.

The Upper School

Comprises 400 boys, sons of Officers of the Navy or Royal Marines, and of Seamen and Marines; and of Officers and Seamen of the merchant service. Every Candidate for admission must have attained the age of eleven, and not exceed twelve years of age; "must be free from any impediment of speech, or other infirmity of body or mind; be able to read fluently, to write small text well, and to work the three first rules of Arithmetic with facility and accuracy."

The education is confined to Mathematics and Navigation, with a proper regard to religious instruction. The construction of Charts upon geometrical principles is the only branch of drawing taught in the school.

It is necessary in all cases to produce the following Certificates:—

1. Certificate of the marriage of the parents; or, if not attainable, other satisfactory proof thereof.

2. Certificate of the day of birth, or a declaration thereof.

3. Certificate of the father's servitude at sea; which, if in the Navy, will be procured by the Clerk of the Cheque, and if in the merchant service, the Guardians of the boy are to procure it from the Collector of the Customs at the port out of which the father sailed.

List of Patrons.

For the first 100, who must be the sons of Commissioned officers of the ward-room rank,
The Board of Admiralty.

The remaining 300 boys are nominated in rotation, as vacancies occur, by
The Lords of the Admiralty, individually,
The Secretary of the Admiralty,
Governor of Greenwich Hospital,
Lieut. Governor of Ditto,
Commissioners of Ditto, individually,

To whom applications for presentations should be preferred.

The Lower School

Consists of 400 boys, sons of Warrant or Petty Officers or Seamen, and non-commissioned Officers or Privates, who are serving or have served in the Royal Navy or Royal Marines, and are admitted solely in reference to the father's services and claims; and to the state of distress of the parents of the Candidates.

Forms and every particular may be obtained respecting the Upper and Lower Schools, by application to the Secretary or Clerk of the Cheque of the Hospital.

SCIENTIFIC EDUCATION OF OFFICERS AND MATES.

Admiralty, 20th December, 1838.

Her Majesty having been graciously pleased to sanction, by Order in Council of July 8th, 1838, the establishment of further means of scientific education for a certain number of Officers and Mates of Her Majesty's Naval Service, under such regulations as the Lords Commissioners of the Admiralty may frame from time to time.

Their Lordships have directed that for this object—Thirty additional Mates, who have passed both the Examination in Seamanship and in Navigation, shall be borne on the books of the "Excellent."

They will receive Sea-pay, and be in all respects under Naval discipline; but they will receive the usual allowance instead of being victualled, and be lodged in the Royal Naval College. Any further expense will be defrayed by themselves.

They will be selected from such as have passed the Ordinary Examination on board the *Excellent*, and a preference will be given to those who shall have passed the best Examination.

They will receive Instruction at the Royal N. C. for the space of one year, and then be discharged.

An Examination will take place at the end of every six months.

The Mate who passes the best Examination, provided he produces satisfactory Certificates of character and professional ability from the Captains with whom he has served, and during the period of his Instruction, will receive a Lieutenant's Commission; provided always he attains a certain fixed degree of proficiency.

A limited number (Ten) of Commissioned Officers of any rank may avail themselves of the instruction thus afforded, for the space of one year. No expense will be incurred on their account; and they will be expected to pass the ordinary examination of the *Excellent* before they are admitted to the instruction at the Royal Naval College.

By Command of their Lordships, C. WOOD.

OPERATIONS AT BORNEO.

London Gazette, Friday, November 29.

ADMIRALTY, Nov. 27.

Despatches have been received at this office from Rear-Admiral Sir Thomas Cochrane, C.B., Commander in-Chief of Her Majesty's ships and vessels on the East India Station, of which the following are copies or extracts:—

"*Agincourt*, off Pulo Laboan, Coast of Borneo, August 13, 1845.

"Sir,—I arrived off the River Bruné (Borneo Proper) on the 6th inst.

"If their Lordships will be good enough to refer to a paragraph towards the conclusion of the memorandum addressed to me by Mr. Brooke, under date the 3rd of July, 1845, they will find a statement of two natives of India having been detained as slaves in the capital itself for two years, continuing under captivity in the presence of the British men-of-war, and from which slavery they made their escape on board the Hon. East India Company's steam-vessel *Phlegethon* on her last visit there, only a few weeks since.

"Under such a glaring disregard of the understanding entered into with the Sultan in respect of slavery, I felt, in conjunction with Mr. Brooke, that it would not be right to permit this transaction to pass without, in the first instance, holding the Sultan responsible for it, and Pangeran Bedurudeen having stated that Pangeran Usop was the real offender, everything should be kept quiet until my arrival in the capital; on the following day I went with the steamers to visit this singular capital, or what is called city, being a miserable collection of bamboo houses, elevated upon piles, surrounded by water, except at low tide, when under many of them you perceive the bare mud; the poverty of the buildings being singularly and inexplicably contrasted with the manners, dresses, and deportment of the higher orders.

"I visited the Sultan with all due ceremony; and, by previous understanding with the Rajah Muda Hassin and his brother, Bedurudeen, the visit was entirely complimentary; but after my departure on the same evening, and following morning, Mr. Brooke had several meetings with those persons. The Sultan stated he was quite ready to punish Pangeran Usop if I would afford my assistance in accomplishing it. It appeared that Usop (I suppose from conscious guilt) concluded he was the object sought, and had, on the day of my visit, told the Sultan that if called on to answer on the score of piracy, he would defend himself to the last.

"In answer to my address to the Sultan, I received the accompanying documents (Nos. 2 and 3), one calling for assistance, the other for personal protection. A subaltern's guard was accordingly sent to the Sultan's residence; and it was settled, through Mr. Brooke, that the Sultan should call on Usop to present himself before him, unarmed, to answer for his conduct, and if he did not do so, his residence was to be attacked.

"The Sultan's commands were accordingly conveyed to him, which not having been replied to within a given time, a shot was fired over his house, to which he promptly replied by a salvo from his battery, when a fire in earnest was opened upon him, and a few minutes sent him and all his adherents off to the woods, and the marines landed and took possession of his house, where, among other things, 20 handsome brass guns, of various calibre, were found, and 150 half-barrels of gunpowder.

"The guns the Sultan requested me to keep; but reserving two of the smallest for the purpose of sale, to produce funds to remunerate the two natives (now serving on board the *Pluto*) for their four years' captivity, I sent the remainder to the Sultan, with a message through Mr. Brooke, to say that we never accepted any remuneration for the protection of friends who were disposed faithfully to carry out the engagements they had entered into.

"I learn from Mr. Brooke, who has been in communication with Muda Hassin and his brother since the flight of Usop and destruction of his property, that the occurrence has given great confidence to the well-disposed party, and that it will equally depress Usop's adherents in the town, of whom there were not a few; and I look for a double result from his punishment—namely, that while it assures the legitimate government of all proper support, they will equally perceive the rod that hangs over them should they be found wanting in their own conduct.

"I have, &c.,
"THOMAS COCHRANE,
"Rear-Admiral, and Commander-in-Chief.
"To the Secretary of the Admiralty, London."

"*Agincourt*, at Sea, in lat. 8° 14′ N., long. 116° 4′E., August 26, 1845.

"Sir,—Following out the intentions referred to in my despatch from Labaon (No. 142), of the 13th of August, I left that anchorage on the 15th inst., and reached the northern end of Borneo on the 17th.

"Having heard from various sources that Scheriff Osman had, for the last twelvemonth, been making preparations against a probable attack, that he had strongly fortified one of the branches of a river in Malfoodoo Bay, and was of a character and supported by resolute adherents not likely to yield without a sharp struggle, I made corresponding arrangements for attack; and having anchored the *Agincourt* and frigates in a safe position, in the hitherto little known fine Bay of Malfoodoo, I hoisted my flag on board the *Vixen* steam sloop, and, attended by the *Cruiser* and *Wolverine* brigs, and the Hon. East India Company's steam vessels *Pluto* and *Nemesis*, proceeded to the head of the bay, carrying deep water until within a couple of miles of the river's mouth, when the *Vixen* and brigs were obliged to anchor, and not far within them the *Pluto*, drawing only six feet, grounded on the bar.

"It being hopeless to attempt to make a further progress in these small vessels, I directed Capt. Talbot, assisted by Acting Captain Lyster, and Commanders Fanshawe and Clifford, to take command of the gun and other boats of the squadron, filled with as many marines and small-arm men as they could with

propriety carry, and proceed up that branch of the Malfoodoo stated by the pilots to be in the occupation of Scheriff Osman; and should their statements prove correct, to ascertain as far as possible the strength of his position and amount of force, either attacking the Scheriff on his refusal to surrender, should he feel equal to the enterprise, or falling back to some suitable position, while he communicated with me in the event of his not considering his force sufficient to guarantee success.

"The accompanying letter and report from Captain Talbot will convey to their Lordships a gratifying narration of his success, and prove the soundness of my judgment in selecting this officer for the important duty confided to him.

"Their Lordships will not fail to unite with me in deep regret at the heavy loss we have incurred; but when the great strength of the position is referred to, and that the force was for one hour exposed to the steadily sustained fire of 11 heavy guns, within little more than 200 yards of our own position, it is rather astonishing than otherwise, and a source of thankfulness, the casualties were not more numerous.

"Their Lordships will not fail to notice the valorous conduct of Acting Captain Lyster, and those immediately under him, upon this occasion; who, undaunted by the fire with which they were assailed, steadily worked at a remarkably well constructed boom for above an hour before he could affect an opening, and in the success of whose exertions mainly depended the advance of the force, who, in ignorance of any other manner of approaching the forts than by the river, could not be brought forward until this object was accomplished; and while I feel persuaded their Lordships will be fully alive to such meritorious conduct, I deeply lament that death has removed from their Lordships' power of reward that promising young officer, Mr. Leonard Gibbard, mate of the *Wolverine*, who bravely worked by Captain Lyster's side; the wound he received on that occasion having, unfortunately for his country and his friends, proved fatal on the following day.

"I sent up the same evening a small detachment of gun boats, under Commander Clifford, to burn such prahnes and boats, and parts of the forts or town as might have remained not completely destroyed, and to render unserviceable any iron guns, and to bring down with him any brass ordnance that might be there.

"Two or three chiefs are known to have fallen on the present occasion, and there is every reason to believe that Scheriff Osman, so formidable to all the neighbouring country, and whose valour was worthy of a better cause, is among the number slain; at least I have certain information that he was carried off badly wounded; but, whether dead or living, I consider his influence to be entirely annihilated, and his confederacy with various piratical chiefs in the Archipelago broken up, for his power as much depended upon his being the encourager of other piratical tribes, and their supplier with goods in exchange for slaves, as in the force naturally at his command. I may add that, among many other articles of European workmanship, a bell belonging to the ship *Guilhelm Ludwig*, of Bremen, was found in the town. This vessel was supposed to have been wrecked on the Garsi Isles, about October or November last, but nothing has been heard of the crew.

"I have, &c.,
"THOMAS COCHRANE,
"Rear-Admiral, Commander-in-Chief.
"To the Secretary of the Admiralty, London."

"Her Majesty's Steam-vessel *Vixen*,
Maloodoo Bay, August, 20, 1845.

"Sir,—I have to report the proceedings of the expedition you did me the honour to place under my command.

"Your Excellency's flag having been flying on board the *Vixen*, you are aware of its progress to the anchorage at the head of the Maloodoo Bay; I commence, therefore, the details from that period.

"The force, consisting of 530 seamen and marines (the details of which I annex), conveyed in 24 boats, of which nine were gunboats, left the *Vixen* at three o'clock p.m., on the 18th inst., and after some little difficulty in hitting on the channel, was anchored off the mouth of the Sonoy-basar a little after sunset. Here we were joined by a boat from the *Pluto*, carrying *Agincourt's* field-piece.

"The tide serving about 11 o'clock, p.m., weighed, and passing the bar, anchored within it; at daylight on the 19th we proceeded up the river in two divisions; after proceeding about two miles, I was informed by the Bruné pilots we were nearing the town. I therefore went ahead with Captain Lyster to reconnoitre. On coming to an abrupt turn in the river about three miles higher, we found ourselves suddenly in front of the position, which consisted of two stockaded forts, of eight and three guns each, commanding the reach. About 200 yards below the forts was a boom across the river, apparently well constructed. The forts appeared to us to stand on a tongue of land, from which we were separated by the river, which at that point divided into two branches, and the pilots declared such to be the case, that turning to the right we observed was still further defended by a floating battery. There appeared, therefore, to be no means of carrying the position but by forcing the boom.

"On rejoining the force, arrangements were made for the gunboats to advance to the boom, to cover the party appointed to cut through it, the remainder of the force to hold themselves to act when ordered. We had approached the boom to within 100 yards, when a flag of truce was observed to be coming towards us. Conceiving the object of the enemy was merely to gain time, I sent back a message, 'that unless Scheriff Osman came to me in half an hour I should open fire.' This being conveyed to the fort, the flag returned with an offer to admit me with two boats, that I might visit the Scheriff. I declined, and the flag retired. The moment it was clear of the line of fire the three-gun battery opened, and the cannonade became general on both sides.

"The boom was composed of two large-sided trees, each supporting a chain cable, equal to 10 or 12 inches, firmly bolted and secured round the trunk of a tree on each bank; a cut in the right

bank allowed a canoe to pass, but was impassable to any of our boats.

"One hour nearly elapsed before we could in any way remove the obstacle, during which time the fire of the enemy was well sustained, all the guns being laid for the boom. I need hardly mention it was briskly returned from our side, both from guns and small arms; and some rockets, well thrown by a party which had been landed on the right bank, appeared to produce considerable effect.

"As soon as the passage was open for the smaller boats, they passed through rapidly, and embarked the marines from the large boats across the boom; ultimately the whole force passed through. The enemy immediately quitted their defences, and fled in every direction. The marines and small-arm men having cleared the town, the marines were formed as a covering party, and parties of seamen were pushed up both banks of the river, but met with no opposition; at the same time preparations were made for spiking the guns and destroying the stockades and town; in a short time these were completed, and the whole in flames, as well as three large proas, and several smaller ones.

"Being anxious to save the tide, and conceiving that the object contemplated by your Excellency was accomplished, I ordered the force to be re-embarked, and proceeded down the river to the *Viren*.

"When your Excellency considers the strength of the enemy's position, and the obvious state of preparation in which we found him, you will be prepared to learn that this service has not been performed without considerable loss. I regret very much to state it at six killed and 15 wounded; the loss on the part of the enemy was, unquestionably, very great, but the surrounding jungle afforded the enemy the means of carrying away their dead, according to their custom in such cases. Nevertheless, some of those left on the field we recognised as persons of considerable influence.

"Whilst I record my admiration of the gallantry and steadiness of the whole force under a galling fire, sustained for a long period, I must particularly mention Captain Lyster, who directed his attention to the boom, and by whose personal exertions that obstacle was overcome.

"Mr. Gilbard, mate of her Majesty's ship *Wolverine*, was, I grieve to say, mortally wounded by an early shot, when gallantly working at the boom with an axe.

"I beg leave to point out to your Excellency the conduct of Mr. Williamson, Malay interpreter to Mr. Brooke; he was with me during the attack, and was exposed to the whole of the fire.

"I have, &c.,

"CHARLES TALBOT, Captain.

ADDRESS TO THE JULY EDITION.

THE favourable reception of the preceding Number of the NEW NAVY LIST demands the best thanks of its Editor and Proprietors, and they are induced to hope for a continuance of the good opinion and support of the Naval profession and the public.

The extensive changes in the first Number of the Revised Series have compelled the Editor rather to perfect, in the present Number, that which was then commenced, than to introduce much further alteration; but as progressive improvements and extension will be steadily pursued in future Numbers, it is proposed to introduce into the January Volume distinguishing marks against the names of those Officers who have received Medals from the Royal Humane Society, or other public bodies, for saving the lives of their fellow creatures. In all cases, it is presupposed that a service of this nature must have been performed at great personal risk, and from the purest of motives; consequently, a distinction of the kind must at all times afford gratification and insure respect to the possessor.

In order to make our List complete in this new particular, Officers are requested to communicate their Services as soon as convenient.

ADDRESS TO THE FEBRUARY EDITION.

THE importance of the NEW NAVY LIST and GENERAL RECORD OF SERVICES to all Officers of the Royal Navy and Royal Marines, has been seriously considered by the Proprietors and Editor of the present Number. In completing, at a great sacrifice of capital and labour, the extensive alterations, which will be observable at a glance, due regard has been paid to the relative services of all Officers, and the whole arrangement so changed that its superiority in point of information will, it is hoped, render the NEW NAVY LIST a book of general circulation and reference.

Nothing can be further from the wish of the Proprietors than to detract from the merits of the late gallant Compiler, Commander HAULTAIN, whose labours and sacrifices were but ill compensated by the sale of the work; but, in admitting deficiencies, of which a remedy has been aimed at, they must be in a great measure laid to the charge of the want of business resources with which he had to contend. In this respect there will now be nothing wanting; and it is the full intention of the Proprietors to render the NEW NAVY LIST in every way worthy the full confidence and patronage of the Navy and Country at large.

The changes which have at present been effected may be here alluded to. The Services of all Officers have been separated from the mass, and brought to follow the Seniority Lists of the respective ranks as closely as possible. The object of this has been to facilitate references. The Services have been thoroughly revised and reprinted in double columns, and all expletive terms of commendation or otherwise struck out. Thus an Officer will no longer have to read the services of a brother Officer recounted in a more laboured strain than his own, which intrinsically, perhaps, were of greater merit than those so described. The propriety of this will, it is hoped, meet with general concurrence, and by thus removing superfluous type, an extended record of actual service is rendered easy. In a word, it is the wish to condense as much real service as possible into a small and intelligible compass, without giving undue consequence to any.

The NEW NAVY LIST will also, for the future, give by far the most complete record of the Services of that distinguished corps, the Royal Marines, in a condensed form, to be found in any publication. This new feature will, it is hoped, have the effect of making it a work essential and acceptable to all in any way connected with the Navy. In compiling the Services for the present Number, the Editor acknowledges the assistance he has derived from the valuable work lately published by Lieut. Nicolas, of that corps.*

The List of the Navy has also undergone a thorough revision. Beneath the name of each Ship on the Effective List will be found the place and date of launching, the tonnage, and name of constructor or constructors—information not to be found in a complete shape in any other publication extant. The unserviceable and harbour service Ships have been removed to a separate list.

The exclusion of the "date of passing" column, heretofore given in the Seniority Lists of Captains, Commanders, and Lieutenants,

* General Record of the Services of the Royal Marines, &c. By P. H. Nicolas, Lt. R.M.

demands some explanation. The extremely partial, and occasionally inaccurate, way in which the information was given, rendered it particularly objectionable; and the evident disinclination on the part of Officers of long standing generally to communicate the information, added to the impracticability of procuring it from an official source, decided the point of removing the column entirely. If, however, at any future period, the dates of passing can be given in every case, it will be more valuable and far less invidious than it was previously.

But the most important new feature is that of the General Alphabetical Index of all Officers in the Royal Navy and Royal Marines, which has been compiled with great labour, and upon the accuracy of which the character of the work may be safely staked.

The Honorary Marks before the names of titled Officers will soon become familiar to the eye, and it is presumed they will be preferred to the letters heretofore used.

The Initial Letters at present refer only to the services of Officers in Lord Howe's great battle of the 1st June, 1794; Sir John Jervis's victory off Cape St. Vincent, 14th February, 1797; Admiral Duncan's defeat of the Dutch fleet off Camperdown, 11th Oct., 1797; Nelson's achievements at the Nile, 1st Aug., 1798; at Copenhagen, 2nd April, 1801; and at Trafalgar, 21st Oct., 1805; together with the expedition to Egypt, 1801; Sir Richard Strachan's action off Ferrol, 4th Nov., 1805; and the defeat of the French squadron off St. Domingo by Admiral Sir John Duckworth, 6th February, 1806. By this selection it is not meant to cast other services into the shade, and it will be a subject for consideration what other triumphs of the British Navy shall be equally distinguished. Those selected will, without doubt, ever rank foremost in the pages of Naval History; and as the Captains who participated in all (except that of Copenhagen) were honoured with gold medals, there was good reason for commencing with those brilliant victories. The Battle off Lissa; bombardment of Algiers; destruction of the Turkish fleet at Navarin; and the overthrow of St. Jean D'Acre, were each and all alike honourable to British prowess, and will also come under consideration for distinction.

Although thus much has been done, attempts at further improvement will not be wanting, and it will afford pleasure to the Proprietors and Editor to receive corrections or available additions to the services as they are now given. In particular, those services of a scientific character are here alluded to, which Officers are requested to furnish in order to render this peculiar province more complete.

It will, however, be obvious that the great expenses connected with the publication of a work like the New Navy List cannot be persevered in without an increase to the number of Subscribers; and those whose wish it is to maintain a work of such value to all who have claims which require to be kept before those in authority, will, it is hoped, use their best endeavours to increase the sale. They will thereby also enable the Proprietors to publish the work at the lowest price which will afford a due return for the capital embarked, and the vigilance and labour which must be incessantly employed in the collection of new materials, and the preservation of accuracy.

He will be required to have a thorough knowledge of Practical Observations of the Sun, Moon, and Stars, for ascertaining the Latitude; to work double Altitudes; the Longitude by Chronometer; and to keep a Ship's reckoning by the common Rules, usually denominated a day's work. He will also be required to produce Certificates of Servitude and Regularity of Conduct.

Candidates for the appointment of Acting Master's Assistant are to be strictly and carefully examined in the presence of the Captain, or Commander, by a Master and Naval Instructor, and, when there shall not be an Officer of the latter Class, by two Masters, touching their abilities in Seamanship, Navigation, &c. The Certificates of Qualifications are to be signed by the Captain, or Commander, as well as by the examining Officers; and all Candidates who shall be found qualified, agreeably to the before-mentioned provisions, will be considered eligible to be appointed by their Lordships as Acting Masters' Assistants in Her Majesty's Navy accordingly.

Such Masters as shall not have served afloat as Masters in the Royal Navy six complete years, and are not already in the receipt of higher half pay, shall not be entitled to any increase of pay beyond Five shillings a day, except in cases where it shall appear to the Lords Commissioners of the Admiralty, that inability to serve the prescribed term of six years shall have been caused by wounds or ill health, arising from the service.

NAVAL INSTRUCTORS.

A Naval Instructor shall produce a Certificate of his age, and Testimonials of good character, and shall pass such Examination as the Admiralty may from time to time direct; but no person will be considered eligible for the situation who is under 20 or more than 35 years of age. He will be allowed, in addition to his pay, £5 a-year to be charged on the ship's books against, and to be deducted from, the pay of every young gentleman who shall have received instruction from him; but no Naval Instructor who shall retire from his employment without the sanction of the Admiralty, or who shall refuse or avoid service, if found capable of serving, shall be allowed to receive half pay; and his name in such case will be removed from the list of Naval Instructors.

Chaplains appointed to act as Naval Instructors are to be designated "Chaplains and Naval Instructors," and will be allowed £5 a year to be deducted from the pay of every young gentleman instructed by them, in addition to their pay as Chaplains and to three-fourths of the amount of the Full Pay of Naval Instructors, according to the length of their service as such.

REGULATIONS FOR THE QUALIFICATION, AND HALF-PAY OF NAVAL INSTRUCTORS AND SCHOOLMASTERS, ESTABLISHED BY ORDER IN COUNCIL OF THE 22nd DEC. 1836, 10th AUGUST, 1840, AND 11th MARCH, 1842.

Naval Instructors and Schoolmasters are hereafter to be designated "Naval Instructors," and Chaplains on being appointed to act as Naval Instructors are to be designated "Chaplains and Naval Instructors."—No person will be considered eligible for a Warrant as Naval Instructor who is under 20 years of age or more than 35.—Before any person can hereafter be received on board Her Majesty's ship "Excellent" as a candidate for an appointment as Naval Instructor, he will be required to produce a certificate of his age, and testimonials of good character; and both laymen and clergymen when appointed to act as Naval Instructors must pass an examination as to their qualifications to instruct the young Officers in the following branches:—1st. Common Arithmetic, including Vulgar and Decimal Fractions.—2nd. The first six, and the eleventh books of Euclid.—3rd. Algebra, progressing to the highest order of equations, and its application to the solution of Geometrical Problems.—4th. Plane and Spherical Trigonometry, theoretical and practical.—5th. Nautical Astronomy, particularly the principles on which the various rules for finding the latitude and longitude are founded.—6th. Mechanics.—7th. Hydrostatics.—8th. A competent knowledge of the Classics.

The final examination of Candidates for Naval Instructorships will comprise:—1st. The usual College passing examination in Navigation.—2nd. The application of the theory of Projectiles to Gunnery.—3rd. Observations with the Sextant, &c. The use of the Azimuth Compass and Chronometer, &c. Perfect proficiency will be expected in observing: 250 numbers will be required to pass a Candidate in the College Paper, and 55 is to be the minimum number for observations.

Although the knowledge of French, as well as of other modern languages, and of the principles of drawing, is not considered as indispensable, it is very desirable that Naval Instructors should be able to give instruction in these branches of education; and preference will always be given to such as possess these attainments.

The Naval Instructor is to be considered in all respects a Ward Room Warrant Officer. Unless they be in Holy Orders, they are to wear the same uniform as Masters, but without epaulettes or gold lace on the trowsers.

Admiralty, 7th May, 1830.

Notice is hereby given to the Medical Officers of the Royal Navy, that Sir Gilbert Blane, Bart., First Physician to his Majesty, and formerly Member of the Board for Sick and Wounded Seamen, with the concurrence and approbation of the Lords Commissioners of the Admiralty, has, for the encouragement of Naval Medical Science, and the excitement of an emulation that may conduce to the interests of an important branch of the public service, established a Fund in perpetuity, for the purpose of providing the means of conferring a *gold medal*, once in every two years, on such two Medical Officers, whether *Surgeons*, or *Assistant-Surgeons acting as Surgeons*, as shall produce the most approved journals of their practice, whilst actually serving in King's Ships.

The selection of the journals will, in the first instance, be made by the Medical Commissioners of the Victualling Board, on the 12th of August, 1831, and will consist of not more than ten, nor less than five, of those journals delivered into office between the 12th of July, 1827, and the 12th of July, 1831; and the subsequent selections will be made from those delivered within the period of every two succeeding years; and the adjudication of the medals will, during the life of Sir Gilbert Blane, be made by him, and will subsequently be vested in the Senior Medical Commissioner, the President of the College of Physicians, and the President of the College of Surgeons, London.

OFFICERS AUTHORISED TO WEAR FOREIGN ORDERS.

Rules relative to Foreign Orders from Foreign Sovereigns.

No British Subjects shall accept a Foreign Order, or wear its Insignia, without having previously obtained a Warrant under the Royal Sign Manual (directed to the Earl Marshal of England), granting them Her Majesty's permission to accept and wear the same.

To obtain such permission, the intention of the Foreign Sovereign to decorate a British subject with the Insignia of such Order is to be notified to Her Majesty's Principal Secretary of State for Foreign Affairs, either through the Queen's Minister abroad, or through the accredited Minister of the Foreign Sovereign resident at this Court.

When Her Majesty's Principal Secretary of State for Foreign Affairs shall have taken Her Majesty's pleasure, and obtained Her consent upon the occasion, he shall then signify the same to Her Majesty's Principal Secretary of State for the Home Department, in order that the usual Warrant may be prepared for the Royal Sign Manual, and such other steps be taken as may be necessary for carrying Her Majesty's pleasure into effect accordingly.

When the Warrant is signed by the Queen, it shall be announced in the Gazette in the usual manner, and registered in Her Majesty's College of Arms.

No subject of Her Majesty can be allowed to accept the Insignia of a Foreign Order from any Sovereign of a Foreign State, except they shall be so conferred in consequence of active and distinguished services before the enemy, either at sea or in the field, or unless he shall have been actually employed in the service of such Foreign Sovereign.

Her Majesty's licence and permission doth not authorise, and shall not be deemed or construed to authorise, the assumption of any style, appellation, rank, precedence, or privilege appertaining unto a Knight Bachelor of these Realms.

And if the application be in favour of a Naval Officer, the Principal Secretary of State for Foreign Affairs will communicate with the First Lord of the Admiralty to the same effect, previous to Her Majesty's pleasure being taken thereon.

SCIENTIFIC EDUCATION OF OFFICERS AND MATES.

Admiralty, 20th December, 1838.

Her Majesty having been graciously pleased to sanction, by Order in Council of July 8th, 1838, the establishment of further means of scientific education for a certain number of Officers and Mates of Her Majesty's Naval Service, under such regulations as the Lords Commissioners of the Admiralty may frame from time to time.

Their Lordships have directed that for this object—Thirty additional Mates, who have passed both the Examination in Seamanship and in Navigation, shall be borne on the books of the "Excellent."

They will receive Sea-pay, and be in all respects under Naval discipline; but they will receive the usual allowance instead of being victualled, and be lodged in the Royal Naval College. Any further expense will be defrayed by themselves.

They will be selected from such as have passed the Ordinary Examination on board the *Excellent*, and preference will be given to those who shall have passed the best Examination.

They will receive Instruction at the Royal N. C. for the space of one year, and then be discharged.

An Examination will take place at the end of every six months.

The Mate who passes the best Examination, provided he produces satisfactory Certificates of character and professional ability from the Captains with whom he has served, and during the period of his instruction, will receive a Lieutenant's Commission; provided always he attains a certain fixed degree of proficiency.

A limited number (Ten) of Commissioned Officers of any rank may avail themselves of the instruction thus afforded, for the space of one year. No expense will be incurred on their account; and they will be expected to pass the ordinary examination of the *Excellent* before they are admitted to the instruction at the Royal Naval College.

By Command of their Lordships, C. WOOD.
